Independent Auditors' Report

The Board of Trustees
Oklahoma Student Loan Authority

We have audited the accompanying balance sheet of the Oklahoma Student Loan Authority (the "Authority"), a component unit of the State of Oklahoma, as of June 30, 2012 and 2011, and the related statements of revenues, expenses and changes in net assets and cash flows for the years then ended. These financial statements are the responsibility of the management of the Authority. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Authority as of June 30, 2012 and 2011, and the changes in its net assets and its cash flows for the year then ended, in conformity with accounting principles generally accepted in the United States of America.

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on page 4 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

In accordance with *Government Auditing Standards*, we have also issued our report dated November 30, 2012, on our consideration of the Authority's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts, grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance, and the results of that testing, and not to provide an opinion on the internal control over financial reporting and compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

MANAGEMENT'S DISCUSSION AND ANALYSIS

OKLAHOMA STUDENT LOAN AUTHORITY

Years Ended June 30, 2012 and 2011

The Oklahoma Student Loan Authority (Authority) is an eligible lender, a loan servicer and a secondary market in the guaranteed Federal Family Education Loans (FFEL) Program under the Higher Education Act. The Authority performs loan servicing functions under the registered trade name "OSLA Student Loan Servicing TM".

The Student Aid and Fiscal Responsibility Act of 2009 (SAFRA), Title II of the Reconciliation Act, became law on March 20, 2010. Beginning July 1, 2010, eligible lenders, including the Authority and its Network of eligible lenders, were no longer allowed to originate FFEL Program student loans. Beginning July 1, 2010, all federal student loans were solely originated by the federal government pursuant to its Direct Loan Program.

In the years prior to July 1, 2010, the Authority originated loans and performed servicing of FFEL Program loans for as many as 45 other eligible lenders as members of the OSLA Network. Upon the elimination of new loan origination in the FFEL Program at July 1, 2010, the Authority continued to service FFEL Program loan portfolios for 43 eligible network lenders. On June 29, 2011, the Authority purchased loans from 34 network lenders using the proceeds from our 2011-1 financing. Subsequently in September 2011, the Authority purchased all remaining loans from these 34 network lenders to liquidate their portfolios of FFEL loans serviced by the Authority. The remaining 9 lenders did not sell their loans to the Authority and either entered into loan servicing agreements with OSLA or deconverted their loans to another servicing provider.

During fiscal year 2011, the Authority entered into a memorandum of understanding with the U.S. Department of Education (USDE) to pursue a Not for Profit Servicer (NFP) contract to service federal student loans. Subsequently, the Authority and USDE executed a Not-For-Profit Servicer contract on July 12, 2012 and the Authority started servicing USDE loans on July 26, 2012. See further discussion in "Financial Analysis of the Authority."

This section of the Authority's annual financial report presents a discussion and analysis of the Authority's financial performance for the fiscal years ended June 30, 2012 and 2011. Please read it in conjunction with the Authority's financial statements and the notes to the financial statements, which follow this section.

OVERVIEW OF THE FINANCIAL STATEMENTS

Please refer to the Notes to Financial Statements, Summary of Accounting Policies for a description of the Authority's basis of accounting and accounting policies.

Incentive Programs Affecting Operating Revenues

The Authority generates its Operating Revenues from borrower interest, subsidized interest and special allowance from the U.S. Department of Education (USDE), and loan servicing fees, on its student loan portfolio. Certain Authority policies affect the generation of Operating Revenues.

The Authority offered certain incentive programs to our borrowers:

The following three incentives were offered for loans with first disbursement dates prior to July 1, 2008. The Authority eliminated or reduced this interest rate reduction incentive program for loans with first disbursement dates on or after July 1, 2008 so that loans from the Authority and members of the OSLA Student Lending Network would be in compliance with the requirements of the USDE's Participation and Put Programs as authorized by the Ensuring Continued Access to Student Loan Act (ECASLA) (Public Law 110-227).

TOP Interest Rate Reduction - A portion of the Authority's Stafford Loan and PLUS borrowers, including borrowers of loans that the Authority services for the OSLA Student Lending Network could earn a 1.5% interest rate reduction by making their first twelve payments on time. The reduced interest rate will apply for the life of the loan after it was earned.

OVERVIEW OF THE FINANCIAL STATEMENTS--Continued

Incentive Programs Affecting Operating Revenues--Continued

EZ PAY Interest Rate Reduction - Borrowers earned an interest rate reduction by using the Authority's electronic debit for making their monthly payments. The reduced interest rate applies as long as the borrower uses OSLA's electronic debit, EZ PAY, for making monthly payments. The Authority increased the interest rate reduction for using EZ PAY from 0.33% to 1.0% effective June 20, 2007. The Authority decreased this interest rate reduction incentive program from 1.0% to 0.25% for loans with first disbursement dates on or after July 1, 2008 as noted above. Subsequently, the incentive was eliminated for loans with first disbursement dates on or after April 1, 2011.

TOP Principal Reduction - A portion of the Authority's Stafford Loan and PLUS borrowers earned a 1% reduction in the principal amount of their loans by making their first three payments on time.

The remaining previously offered incentives described below were discontinued on the dates noted.

Consolidation Loan Principal Reduction - Consolidation loan borrowers could earn a 1% reduction in the principal amount of their loan by making their first six payments on time. The Authority discontinued our consolidation loan program effective July 1, 2008.

The achievement of the TOP and EZ PAY Interest Rate Reduction programs results in a reduction, and will result in a future reduction, in Operating Revenues received and in the average yield for the total student loan portfolio.

The Authority expenses the cost associated with the TOP and Consolidation Loan Principal Reduction programs in the period the incentive was earned as a reduction to loan interest income from borrowers.

Student loans receivable, net decreased by approximately \$175,745,000 and \$127,344,00 to approximately \$739,011,000 and \$914,756,000 at June 30, 2012 and 2011, respectively, due primarily to principal payments received from borrowers, claim payments from guarantors, loan consolidations and loans sold to the USDE pursuant to the Straight A Funding Asset Backed Commercial Paper Conduit program (Conduit).

Investments decreased by approximately \$29,407,000 and \$10,556,000 to approximately \$76,610,000 and \$106,017,000 at June 30, 2012 and 2011, respectively, due primarily to principal and interest repayments on outstanding notes and bonds and payment of bond program expenses that more than offset loan payments from borrowers.

FINANCIAL ANALYSIS OF THE AUTHORITY--Continued

Notes and bonds payable decreased by approximately \$201,006,000 and \$138,601,000 to approximately \$765,252,000 and \$966,258,000 at June 30, 2012 and 2011, respectively, due primarily to principal payments on outstanding notes and bonds payable.

At June 30, 2012 and 2011, the Authority was servicing student loans from members of the OSLA Student Lending Network with a principal balance of approximately \$51,127,000 and \$152,193,000, respectively.

The total portfolio of gross student loans that the Authority owns or services for members of the OSLA Student Lending Network was approximately \$800,013,000 and \$1,072,000,000 at June 30, 2012 and 2011, respectively. This is a decrease of approximately \$271,987,000, or 25.4%, and \$550,028,000, or 33.9%, from June 30, 2011 and 2010, respectively. The significant declines are due to payments by student loan borrowers, claim payments by guarantors, loan sales to USDE through the Conduit Put and ECASLA programs and loan payments from the Federal Direct Consolidation Loan Program.

MANAGEMENT'S DISCUSSION AND ANALYSIS--Continued

OKLAHOMA STUDENT LOAN AUTHORITY

Years Ended June 30, 2012 and 2011

FINANCIAL ANALYSIS OF THE AUTHORITY--Continued

Gross loan interest income for the year ended June 30, 2012 decreased from fiscal year 2011 due to the decrease in the Authority loan portfolio. This decrease was offset by decreases in amortization of loan production related deferred costs which are netted against gross loan interest income. Loan interest income for the year ended June 30, 2011 was approximately the same as for the year ended June 30, 2010. Loan interest income is primarily affected by loans outstanding and the variable interest rates on student loans which are reset annually on July 1st. The variable rates ranged from: 1.59% to 3.59% for the year ended June 30, 2012; 1.87% to 3.27% for the year ended June 30, 2011; and 1.88% to 3.73% for the year ended June 30, 2010. The fixed rates for loans first disbursed on or after July 1, 2006 ranged from 5.6% to 8.5%. See Note D, Loans and Allowance for Loan Losses, for explanation of the quarterly lenders' yield and its relationship to the loans' stated variable or fixed interest rates.

Previously, substantially all of the student loans that we own had a lender's yield based on a 3-month commercial paper index. The U.S. Department of Education announced in February 2012 certain conditions which would allow lenders to substitute the 1-Month LIBOR for the 3-month commercial paper rate for purposes of special allowance calculations. On March 30, 2012, OSLA elected to change the special allowance payment index on the loans that we own to the 1-Month LIBOR index, effective for the billing for the quarter ended June 30, 2012.

Interest expense - The Authority funded the origination or acquisition of student loans by periodically issuing bonds and notes and by reinvesting principal payments received on existing loans. The approximate \$201,006,000 decrease in bonds and notes outstanding and net of a slight increase in the weighted average cost of funds of 1.1% as of June 30, 2012, compared to a 0.96% cost of funds at June 30, 2011, led to the significant decrease in interest expense for the year ended June 30, 2012. Interest expense also declined significantly for the year ended June 30, 2011 compared to June 30, 2010, due to a \$138,601,000 decrease in bonds and notes payable outstanding and a lower weighted average cost of funds, 0.96%, as of June 30, 2011, compared to a 1.59% cost of funds at June 30, 2010.

Net interest margin (deficit) for the years ended June 30, 2012, 2011, and 2010 of approximately \$2,793,000, \$(255,000) and \$(8,377,442), respectively, resulted from the significant decrease in interest expense and represents an improvement of approximately \$3,048,000 and \$8,123,000 from the years ended June 30, 2011 and 2010, respectively.

Loan servicing fees decreased for the year ended June 30, 2012 to approximately \$682,000, related to the elimination of fees the Authority charged for processing ECASLA Put loan sales to the USDE for our lender customers. All ECASLA loans were sold prior to the termination of this program in fiscal year ending June 30, 2011. Loan servicing fees increased to approximately \$5,829,000 for the year ended June 30, 2011 as a result of the ECASLA fees earned, compared to the \$2,859,023 earned for the year ended June 30, 2010.

MANAGEMENT'S DISCUSSION AND ANALYSIS--Continued

OKLAHOMA STUDENT LOAN AUTHORITY

Years Ended June 30, 2012 and 2011

FINANCIAL ANALYSIS OF THE AUTHORITY--Continued

Gain on early extinguishment of debt increased to approximately \$1,740,000 for the year ended June 30, 2012 from \$356,500 for the year ended 2011 due to an increased number of notes and bonds payable offered to us for redemption at a discount through unsolicited offers from debt holders and from tender offers made by the Authority. Such gains decreased by \$4,001,000 for the year ended June 30, 2011 from \$4,357,000 for the year ended 2010, due to fewer notes and bonds payable offered.

Other operating expenses for the year ended June 30, 2012 decreased by 18.4% to approximately \$7,324,000 from the year ended June 30, 2011, and decreased by 12.6% to approximately \$8,976,000 from the year ended June 30, 2010. These reductions in other operating expenses were related to decreased loan servicing activities in 2012, and staff reductions related to SAFRA as well as decreased loan servicing activities in 2011. The Authority prepares an annual operating budget that is used as a management tool for monitoring operating expenses. There were no significant variances between the budget and actual operating expenses for any of the three years ended June 30, 2012.

TRANSITION PLANS FOR FEDERAL LOAN SERVICING

SAFRA requires the Secretary of the USDE to contract with eligible and qualified Not For Profit (NFP) Servicers to service federally held student loans. The Authority responded to USDE's NFP Servicer Solicitation on December 1, 2010. On April 13, 2011, USDE and the Authority entered into a Memorandum of Understanding (MOU) for the Authority to pursue a contract award as an NFP Servicer. This MOU contained a Go Live date of July 1, 2012 for the Authority to start servicing Federal Student Loans. Subsequently the Authority and USDE executed a Not-For-Profit Servicer contract on July 12, 2012 and the Authority started servicing USDE loans on July 26, 2012.

According to the terms of the Authority's Not-For-Profit contract, the Department will transfer 100,000 borrower accounts to the Authority for servicing. The addition of 100,000 borrower accounts represents a significant increase to the Authority, which was servicing approximately 65,000 borrowers as of June 30, 2012 in its existing FFEL Program servicing portfolio. Subsequently, USDE transferred approximately 103,000 borrower accounts to the Authority. This transfer of USDE owned loans to the Authority for servicing was accomplished in three separate on-boardings processed in July, August and September 2012.

The Authority acquired additional capital assets, increased its number of personnel and related costs, and entered into contracts with service providers and consultants required to earn the NFP Servicer contract with USDE. The Authority is funding this transition using fees collected from certain network lenders on their sale of loans to USDE for the academic year 2009-2010 ECASLA Put program.

DEBT ADMINISTRATION

The Authority funded student loan notes receivable by issuing tax-exempt and taxable bonds and notes. The bonds and notes must be approved by the State of Oklahoma bond oversight process prior to issuance. Tax-exempt bonds or notes also must receive an allocation of the State of Oklahoma private activity volume ceiling or "cap". In addition, the issues must comply with federal statutes and with the rules and regulations of the United States Treasury Department and the United States Securities and Exchange Commission.

Detailed information on the Authority's debt is presented in Note E to the audited financial statements.

\$570,920,000, \$718,825,000, and \$788,385,000 of the Authority's debt was publicly held at June 30, 2012, 2011, and 2010 respectively, and had long-term credit ratings assigned by Moody's Investors Service (Moody's), Standard and Poor's (S&P) and Fitch at June 30, 2012 based on the type of security which is reflected in the table below.

Credit Ratings	2012	2011	2010	Type of Security
	Principal Amount	Principal Amount	Principal Amount	
Aaa Moody's/AA+ S&P /AAA Fitch	\$ 542,965,000	\$ 689,845,000	\$ 511,180,000	Senior Lien or Insured
Baa1 Moody's / AA- or A S&P	\$ -	\$ -	\$ 248,225,000	Insured
A2 Moody's/A S&P	\$ 27,955,000	\$ 28,980,000	\$ 28,980,000	Subordinate Bonds

On September 19, 2011, Standard & Poor's published new criteria to describe their methodology for the treatment of partial loan-level support to loans backing "AAA" rated securities where USA government agencies or entities rated by Standard & Poor's provide such support. Bonds issued by the Authority are collateralized by Federal Family Education Loan Program (FFELP) student loans supported by the United States Department of Education in the form of guarantee or reinsurance, special allowance payments and interest subsidy payments.

S&P published a press release regarding 118 Ratings from 70 U.S. Student Loan FFELP Asset Backed Securities Transactions Lowered to "AA + (sf)" on October 7, 2011. Among these series or classes of issues were the Authority's Series 2010A-1, Series 2010A-2A, Series 2010A-2B and Series 2011-1 bonds. In March 2012, the 1995 Master Bond Resolution Series 2001A-1; 2001 A2/A3; 2004 A-1 and 2004 A-2 were also lowered to AA+ by S&P. Each series of the bonds is now rated by S&P at AA + (sf) instead of their AAA (sf) rating which was assigned by S&P when the Bonds were issued on their respective issue dates. The ratings reflect only the view of S&P at the time such ratings were given. An explanation of the significance of the ratings may be obtained from S&P.

NOTES TO FINANCIAL STATEMENTS

OKLAHOMA STUDENT LOAN AUTHORITY

Years Ended June 30, 2012 and 2011

NOTE A--REPORTING ENTITY AND NATURE OF PROGRAM

The Oklahoma Student Loan Authority (the Authority) was created as an express trust under applicable Oklahoma Statutes and a Trust Indenture dated August 2, 1972, with the State of Oklahoma (the State) accepting the beneficial interest therein. The Authority is a component unit of the State and is included in the financial statements of the State as a part of the Enterprise Fund. Enterprise funds are used to account for the operations and financial position of governmental entities that are financed and operated in a manner similar to private enterprise.

The purpose of the Authority is to provide student loan funds to qualified persons at participating post-secondary educational institutions. The Authority performs servicing for other Federal Family Education Loan (FFEL) Program lenders in addition to providing a secondary market for FFEL Program loans for participating financial institutions. The student loans held by the Authority under the Federal Higher Education Act of 1965 (Higher Education Act), as amended, include Federal Stafford Loans (Stafford), Unsubsidized Stafford Loans for Middle Income Borrowers (Unsubsidized Stafford), Federal Supplemental Loans for Students (SLS), Federal Parent Loans for Undergraduate Students (PLUS) and Federal Consolidation Loans (Consolidation).

The FFEL Program loans are guaranteed by the Oklahoma State Regents for Higher Education Guaranteed Student Loan Program (State Guarantee Agency), which is reinsured by the United States Department of Education (USDE), or guaranteed by other guarantors approved by the USDE (Guarantee Agencies). As of June 30, 2012 and 2011, the majority of loans are guaranteed at 97% for loans first disbursed on or after July 1, 2006.

As of June 30, 2012 and 2011, the Authority serviced approximately \$51,127,000 and \$152,193,000, respectively, in FFEL Program loans for other financial institutions. As a servicer of FFEL Program loans, the Authority collects student loan remittances and subsequently disburses these remittances to the appropriate lending entities.

The Authority also holds private loans through the Supplemental Higher Education Loan Financing (SHELF™) Program. These loans are not guaranteed under the Higher Education Act. The Authority discontinued originations of SHELF loans effective July 1, 2008.

NOTE B--SUMMARY OF ACCOUNTING POLICIES

The financial statements of the Authority included herein reflect the combined assets, liabilities, net assets and changes therein for the Authority.

Basis of Accounting: The Authority accounts for its operations as an enterprise fund. Enterprise funds focus on the flow of economic resources and use the accrual basis of accounting, similar to private business enterprises. Under the accrual basis of accounting, revenues are recognized when earned and expenses are recorded when incurred. In accordance with the provisions of the Governmental Accounting Standards Board (GASB) Statement No. 20, the Authority applies all relevant GASB pronouncements as well as Financial Accounting Standard Board (FASB) pronouncements and Accounting Principles Board (APB) opinions, unless those pronouncements conflict with or contradict GASB pronouncements, in which case, GASB prevails.

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reported period. Actual results could differ from those estimates.

Accounts of the Authority: The accounts of the Authority are organized on the basis of individual funds as prescribed by the Oklahoma Student Loan Act (the Act) and terms of various debt obligations. The various accounts assigned to each fund may include any of the following, depending upon the terms of the related debt obligation: Principal Account, Interest Account, Student Loan Account, Repayment Account, Debt Service Reserve Account, Rebate Account and General Investment Account.

Cash: Cash consists primarily of demand deposit accounts at financial institutions. The Authority also utilizes bank deposit accounts which periodically sweep cash into uninsured short-term investment securities. The Authority has not experienced any losses in such accounts and believes it is not exposed to any significant credit risk on such accounts.

Investments: Investments consist of repurchase agreements and U.S. Government Securities-based mutual funds. Applicable Oklahoma Statutes authorize certain types of investments the Authority can utilize. As of June 30, 2012 and 2011, the Authority is in compliance with these investment requirements.

Investments are stated at fair value, based on current share prices for mutual funds and at cost for repurchase agreements, with changes in fair value included in the statements of revenues, expenses and changes in net assets.

OKLAHOMA STUDENT LOAN AUTHORITY

Years Ended June 30, 2012 and 2011

NOTE B--SUMMARY OF ACCOUNTING POLICIES--Continued

Loans and Allowance for Loan Losses: Loans are stated at cost, net of an allowance for loan losses. The Authority includes in the cost of a loan any premium paid on student loans purchased. Premiums are amortized over the estimated life of the loan as an adjustment to interest income. Loan origination costs are capitalized when the loan is made and are amortized, using the interest method, over the estimated life of the loan. Due to changes in legislation (Note H), the Authority has not originated any student loans after June 30, 2010.

All of the FFEL Program loans made or acquired by the Authority are guaranteed as described in Note A. There is still risk to the Authority if the loans should lose their guarantee status. The Authority has established cure and recovery procedures to be applied to loans that have lost their guarantee status. If the cure and recovery procedures are not successful within a maximum of three years, the loan will be written off as uncollectible.

The allowance for loan losses was established by the Authority's management to provide for this type of loss, as well as losses on non-guaranteed SHELF™ loans. Student loans are written off when they are deemed uncollectible and charged against the allowance upon such determination. Any subsequent collection or recovery on an account written off as uncollectible is credited to the allowance.

Capital Assets: The Authority capitalizes expenditures for equipment, software, system development and leasehold improvements. Depreciation and amortization are calculated primarily using a straight-line basis of three to ten years. Accumulated depreciation and amortization on capital assets at June 30, 2012 and 2011 were approximately \$3,460,000 and \$3,230,000, respectively. Maintenance costs for equipment and other assets are expensed as incurred.

Restricted Net Assets: Certain assets of the Authority are restricted by the applicable bond and note covenants for the purpose of providing collateral for the outstanding debt obligations and paying debt interest and principal payments that are due (see Note E).

Operating Revenues and Expenses: Balances classified as operating revenues and expenses are those which comprise the Authority's principal operations. Since the Authority's operations are similar to those of a finance company, all revenues and expenses are considered operating.

OKLAHOMA STUDENT LOAN AUTHORITY

Years Ended June 30, 2012 and 2011

NOTE B--SUMMARY OF ACCOUNTING POLICIES--Continued

Interest Income: Interest is earned from the borrowers on the various types of student loans, from the USDE and from investments. The USDE makes two types of interest payments to the Authority. One is for the interest on Subsidized Stafford and Consolidation loans when the borrower is not currently required to make principal and interest payments under the terms of the loan. Such interest income from the USDE for the years ended June 30, 2012 and 2011 was approximately \$5,358,000 and \$6,907,000, respectively. The other type of interest payment from the USDE is a Special Allowance Payment (SAP). The rates for Special Allowance Payments are based on formulas that differ according to the type of loan, the date the loan was first disbursed, the interest rate and the type of funds used to finance such loans (tax-exempt or taxable). These rates are based upon the average rate established in the auctions of 91-day U.S. Treasury bills during such quarter or the quotes of three-month commercial paper (financial index) in effect for each of the days in such quarter. In the event that the quarterly Special Allowance Rates are less than the stated interest rate for the loans with first disbursement on or after April 1, 2006, lenders are required to rebate to the USDE this excess interest over the quarterly Special Allowance rate. This rebate can result in negative Special Allowance income. Net Special Allowance Payments to the USDE for the years ended June 30, 2012 and 2011 were approximately \$15,912,000 and \$18,009,000, respectively.

Additionally, the Authority pays a consolidation rebate fee to the USDE on a monthly basis. The consolidation rebate fee is based on the outstanding principal and unpaid accrued interest on consolidation loans at month end. Consolidation rebate fees paid to the USDE for the years ended June 30, 2012 and 2011 were approximately \$4,093,000 and \$4,581,000, respectively. Such fees are reported as a reduction to loan interest income from USDE.

Arbitrage Rebate: The proceeds from the Authority's tax-exempt debt issuances are subject to arbitrage rebate laws under the Internal Revenue Code. This arbitrage rebate limits the earnings on investment of tax-exempt proceeds in non-purpose investments. The Authority has calculated and made provisions for the estimated cumulative rebatable arbitrage that must be remitted to the Internal Revenue Service for the excess earnings on non-purpose investments.

Income Taxes: As a State beneficiary trust, the income of the Authority earned in the exercise of its essential function is exempt from state and federal income taxes.

NOTE C--INVESTMENTS

The Authority invests its idle cash in collateralized repurchase agreements and U.S. Government securities-based money market mutual funds in accordance with the Authority's investment policy. Generally, the policy requires investments in U.S. Government Obligations or obligations explicitly guaranteed by the U. S. Government to reduce the Authority's related credit risk, custodial credit risk and interest rate risk. Unrestricted investments may also include U.S. bank issued certificates of deposit and municipal bonds.

The U.S. Government securities-based money market mutual funds, at June 30, 2012 and 2011 were rated AAA by the Standards & Poor's Corporation, Aaa by Moody's Investors Service, and AAA/V1+ by Fitch Ratings. Certificates of deposit at June 30, 2012 were rated Three-Star or higher by Bauer Financial. Municipal bonds at June 30, 2012 were rated AAA or higher by the Standard & Poor's Corporation; and Aaa or higher by Moody's Investors Service.

Investments at fair value consist of the following at June 30:

	<u>2012</u>	<u>2011</u>

NOTE D--LOANS AND ALLOWANCE FOR LOAN LOSSES

The Authority purchases and holds various types of student loans as described in Note A. The terms of these loans, which vary on an individual basis, depending upon loan type and the date the loan was originated, generally provide for repayment in monthly instalments of principal and interest over a period of up to 30 years for Consolidation loans and generally up to ten years for other loans. The repayment period begins after a grace period of six months following graduation or loss of qualified student status for the Stafford and Unsubsidized Stafford loans. The repayment period for Consolidation, SLS and PLUS loans begins within 60 days from the date the loan is fully disbursed.

OKLAHOMA STUDENT LOAN AUTHORITY

Years Ended June 30, 2012 and 2011

NOTE D--LOANS AND ALLOWANCE FOR LOAN LOSSES--Continued

The stated interest rates on student loans which are based on USDE regulations ranged from 1.4% to 10.0% for the fiscal year ended June 30, 2012 depending upon the type and date of origination of the individual loan and whether the borrower had earned any of the Authority's interest rate reduction incentives. This stated interest rate is paid by the borrowers or by USDE. For loans that had first disbursement on or after April 1, 2006, the lenders' yield on student loans is based on a quarterly calculation that uses the quarterly average rates of either the 91 day Treasury Bills or 90 day Commercial Paper – Financial indices (1-month LIBOR after March 31, 2012). The lender yield is calculated using these quarterly average rates plus an allowable mark-up that is based on the type and date of the loan's first disbursement. If the quarterly lenders' yield on the loans is less than the stated interest rate, the lender must rebate the excess to USDE. The excess of the loans' stated interest rate over the quarterly lenders' yield is referred to as Negative SAP. The Authority's loan portfolio at June 30, 2012 consisted of approximately 50.3% Negative SAP loans. The calculated quarterly lenders' yield ranged from 1.54% to 3.59% for the fiscal year ending June 30, 2012.

All FFEL Program student loans are guaranteed at 98% or 97% (97% for loans first disbursed on or after July 1, 2006) as to principal and accrued interest. USDE allows the loan guarantors to charge Federal Default or Guarantee fees which are remitted to the loan guarantor. The Authority maintained a borrower incentive program by paying the Federal Default or Guarantee fees when the loans' guarantors charged this fee for Stafford and PLUS loans guaranteed on or after July 1, 2006. Federal Default and Guarantee fees paid by the Authority were capitalized when the loan was made and are amortized, using the interest method, over the estimated life of the loan. The Authority eliminated this incentive program for loans with first disbursement on or after July 1, 2009.

In order for the FFEL Program student loans to be or remain guaranteed, certain due-diligence requirements in loan servicing must be met. As of June 30, 2012 and 2011, approximately \$75,000 and \$232,000, respectively, of loans were no longer considered to be guaranteed.

The Authority is also required to pay to the USDE certain lender origination and consolidation loan rebate fees. The amount of the lender fees includes a certain percentage of the gross loan amount on all FFEL Program loans originated after October 1, 1993 and a certain percentage of the carrying value of the Consolidation loans.

Capitalized loan origination costs, net of accumulated amortization, at June 30, 2012 and at June 30, 2011 were approximately \$0 and \$196,000, respectively.

Premiums paid on student loans purchased, net of accumulated amortization, at June 30, 2012 and at June 30, 2011 were approximately \$0 and \$1,550,000, respectively.

NOTE D--LOANS AND ALLOWANCE FOR LOAN LOSSES--Continued

The deferred cost for Federal Default and Guarantee fees paid by the Authority and the Authority's Lender Paid Origination Fees, net of accumulated amortization, at June 30, 2012 and at June 30, 2011 were approximately \$0 and \$1,440,000, respectively.

During fiscal year 2011, the Authority closed out the ECASLA Loan Purchase Commitment Program for the 2009-2010 Academic Year and sold FFEL Program student loans to the USDE. Proceeds from the sale of those loans to the USDE were approximately \$24,982,000 prior to the termination of this program in October 2010.

Also, during the years ended June 30, 2012 and 2011, proceeds from the sale to USDE of loans collateralizing the Conduit (see Note E) were approximately \$22,487,000 and \$58,699,000 respectively. These proceeds were utilized to pay down the notes payable under the Conduit.

Certain student loans of the Authority are pledged as collateral for various obligations of the Authority.

NOTE E--NOTES AND BONDS PAYABLE

The Authority periodically issues notes and bonds for the purpose of funding student loans. All notes and bonds payable are primarily secured by student loans, related accrued interest and by the amounts on deposit in accounts established under the respective bond resolution or financing agreement as maintained by the corporate trustees. The Authority is in compliance with all significant financing agreement requirements and bond covenants.

Notes payable issued under the Conduit program bear interest monthly based on financing costs incurred by the Conduit. All payments on the loans collateralizing the Conduit program are deposited into a collections account and are used to pay interest costs, service fees and to reduce the outstanding balance of the notes payable.

Notes payable issued under Series 2004A-3 were required to be offered for remarketing beginning on January 1, 2012. The Notes were not successfully remarketed for two successive tender dates. Accordingly, the Notes became subject to mandatory redemption and are required to be paid, to the full extent of amounts available, in 20 quarterly installments in the principal amount of \$3,500,000 and will bear interest at a defined step-up floating rate term based on a LIBOR index that adjusts monthly.

NOTE E--NOTES AND BONDS PAYABLE--Continued

Notes payable issued under the ECASLA Loan Participation Program (Participation) represented Participation interests sold in certain qualifying FFEL Program Loans to USDE. Under this program, the Authority had the option to sell the loans to USDE under the ECASLA Loan Purchase Commitment Program or redeem the Participation on or before September 30, 2010. As a result of the Authority's continuing involvement with the related loans at June 30, 2010, the proceeds received by the Authority are reported as a collateralized borrowing. The Participation interest rate was based on a quarterly participation yield and principal payments on the participated loans reduced the outstanding balance of the borrowing until it was paid off in September 2010.

The following schedules summarize the bonds payable outstanding as of June 30:

NOTE E--NOTES AND BONDS PAYABLE--Continued

The Series 2010A-2B bonds were sold with an original issue discount. The unamortized balance at June 30, 2012 and 2011 was approximately \$675,000 and \$878,000, respectively, and is classified in the balance sheet as an offset to bonds payable.

Variable rate demand obligations outstanding during the year ended June 30, 2011 were Bank Bonds as defined by the terms of a standby bond purchase agreement supporting the 1996 Third Party Insured Resolution. The terms of the Bank Bonds provided for accelerated principal payments (generally requiring equal annual principal payments over approximately five years) and for interest, payable monthly, determined by a defined spread to an index, such as the prime rate or LIBOR. The related bonds were retired with proceeds from the 2011 Tax-Exempt LIBOR Floating Rate Bonds.

At June 30, 2012, the Authority's notes and bonds payable also consisted of auction rate securities (ARS's) totalling \$119,150,000, of which \$92,750,000 was tax-exempt with interest rates set every 35 days and \$26,400,000 was taxable with interest rates set every 28 days.

Fiscal year debt service requirements to maturity or redemption date, assuming interest rates on variable rate debt remains at June 30, 2012 levels, are as follows:

Year Ending June 30	Principal	Interest	Total
2013	\$ 14,000,000	\$ 7,884,561	\$ 21,884,561
2014	193,489,492	7,162,658	200,652,150
2015	14,000,000	6,639,914	20,639,914
2016	14,000,000	6,466,314	20,466,314
2017	6,900,000	6,380,754	13,280,754

NOTE F--RETIREMENT PLAN

The Authority contributes to the Teachers Retirement System of Oklahoma (the TRS), a cost-sharing multiple-employer public employee retirement system which is self-administered. The TRS provides retirement, disability and death benefits to plan members and beneficiaries. The benefit provisions are established and may be amended by the State legislature. Title 70 of the Oklahoma Statutes, Sections 17-101 through 116.9, as amended, assigns the authority for management and operation of the plan to the Board of Trustees of the TRS. The TRS issues a publicly available annual financial report that includes financial statements and required supplementary information for the TRS. That annual report may be obtained by writing to the TRS, P. O. Box 53524, Oklahoma City, OK 73152.

Employees of the Authority, as TRS members, are required to contribute to the plan at a rate set by State Statute (employees' contributions). The contribution rate for TRS members is based on 7% of their covered salary. The Authority made the system members' required contribution on behalf of its employees in 2012 and 2011.

The Authority itself is required to contribute a statutory percentage of participating employees' regular annual compensation for administration of the plan (employer's contributions). The contribution rate for the Authority was 9.5%. The Authority's total payments to the TRS for the employees' and employer's contributions were approximately \$615,000, \$542,000 and \$590,000 for the years ended June 30, 2012, 2011 and 2010, respectively.

NOTE G--COMMITMENTS AND CONTINGENCIES

The Authority conducts certain programs subject to audit by various federal and state agencies. Amounts challenged as a result of audits, if any, may result in refunds to these governmental agencies.

As part of its lender network activities for FFEL Program loans, the Authority has entered into various loan purchase commitments with certain financial institutions for which it performs loan servicing. Under such loan purchase commitments, the seller is required to offer these FFEL Program loans to the Authority and the Authority is required to purchase the loans (subject to the Authority's available finances to fund acquisitions) under certain terms and conditions. As of June 30, 2011, the Authority was committed to purchase such loans totalling approximately \$152,193,000. There was no remaining commitment to purchase loans as of June 30, 2012 because the Authority purchased loans from certain members of our lending network on June 29, 2011 using proceeds from the 2011-1 bond issue, and members who did not sell their loans either entered into new loan servicing agreements with the Authority or converted their loans to another servicer, eliminating the purchase commitment.

NOTE G--COMMITMENTS AND CONTINGENCIES--Continued

Proceeds from the Authority's tax-exempt debt that are invested in student loans are subject to the federal government yield adjustment payment rebate law which limits the earnings rate on funds received by an organization which issues tax-exempt debt. Any excess student loan interest over the allowable debt yield and spread would be rebated to the student loan borrowers as interest rate reductions or loan principal forgiveness, or rebated to the Internal Revenue Service at the maturity of the related debt. The Authority's management is actively monitoring and managing this spread and will take necessary action to maintain student loan yields within the allowable spread over the life of the respective debt issuances. In recent years, the excess interest estimate has shown a significant decreasing trend.

The Authority leases certain facilities and equipment under noncancelable operating leases that expire at various dates through January 2018. Rent expense for the years ended June 30, 2012 and 2011 was approximately \$495,000 and \$521,000, respectively. The following is a schedule of future minimum rental payments under operating leases as of June 30, 2012:

Year Ending June 30	
2013	\$ 458,000
2014	448,000
2015	448,000
2016	448,000
2017	448,000
Thereafter	<u>262,000</u>
	<u>\$ 2,512,000</u>

In connection with actions to begin servicing Federal Student Loans (Note H), the Authority entered into a hosted service license agreement to use software products designed to service both Federal Student Loans and FFELP loans. The initial term of the agreement is the later of the expiration or termination of a contract with the Department of Education as a Not-For-Profit servicer, or five years from the effective date. The agreement calls for minimum annual usage fees of \$450,000 during the term of the agreement.

NOTE H--STUDENT LOAN LEGISLATION

The Higher Education Act is the subject of frequent amendments, including amendments from the federal government's budget process. Legislation passed in 2010 implemented various changes to the FFEL Program.

The Health Care and Education Reconciliation Act of 2010 (HCERA) became law on March 30, 2010. The Student Aid and Fiscal Responsibility Act (SAFRA), Title II of HCERA, included provisions that terminated the FFEL Program. Effective July 1, 2010 eligible lenders, including the Authority, were no longer allowed to originate FFEL Program loans. Beginning July 1, 2010, all federal student loans were solely originated by USDE's Direct Loan Program.

SAFRA also requires USDE to contract with eligible and qualified Not-For-Profit servicers (NFP Servicers) to service federally held student loans. The Authority responded to USDE's NFP Servicer Solicitation on December 1, 2010. On April 13, 2011, the Authority entered into a Memorandum of Understanding (MOU) to pursue a contract award as an NFP Servicer. This MOU contained a Go Live date of July 1, 2012 for the Authority to start servicing Federal Student Loans.

NOTE I--RELATED PARTIES

Certain members of the Authority's Board of Trustees are officers or directors of lenders in the Authority's student lending network. The following relates to these lenders:

	June 30	
	2012	2011
Loans purchased by the Authority for the year	\$ 94,000	\$ 29,117,000
Loans being serviced at year end	38,755,000	677,680

These related party lenders participate in the Authority's student lending network on terms and conditions available to other network lenders similarly situated.

NOTE J--FAIR VALUE OF FINANCIAL INSTRUMENTS

Fair value estimates, methods and assumptions are set forth below for the Authority's financial instruments. Carrying amounts and estimated fair values of financial instruments at June 30 are summarized as follows:

	2012		2011	
	Carrying amount	Estimated fair value	Carrying amount	Estimated fair value
Financial assets:				
Cash	\$ 2,506,649	\$ 2,506,649	\$ 424,471	\$ 424,471
Investments	76,609,922	76,609,922	106,016,904	106,016,904
Interest receivable	7,075,386	7,075,386	12,412,624	12,412,624
Loans, net	739,010,915	739,010,915	914,755,752	914,755,752
Financial liabilities:				
Accrued interest payable	798,923	798,923	580,392	580,392
Notes payable	289,989,492	289,989,492	386,693,595	386,693,595
Bonds payable	475,262,318	475,439,618	579,564,702	579,743,802

The carrying amount for cash, interest receivable and accrued interest payable approximates fair value because of the short maturity of these financial instruments. The fair value of investments is based upon current share prices for mutual funds and cost for repurchase agreements.

The carrying value of loans approximates fair value because of the variable rate nature of the majority of loans and the Special Allowance Payments by the USDE.

The carrying value of notes payable approximates fair value for 2012 and 2011 because all notes were variable rate and approximated rates currently available for notes with similar terms and remaining maturities. The fair value of bonds payable has been determined based on a fair value appraisal performed by a third-party broker.

The Authority categorizes its fair value estimates based on a fair value hierarchy for valuation inputs that gives the highest priority to quoted prices in active markets for identical assets or liabilities and the lowest priority to unobservable inputs. Classification is based on the lowest level of input that is significant to the fair value of the instrument. The fair value hierarchy is as follows:

- Level 1 Inputs to the valuation methodology are quoted prices (unadjusted) for identical assets or liabilities in active markets.

NOTES TO FINANCIAL STATEMENTS--Continued

OKLAHOMA STUDENT LOAN AUTHORITY

Years Ended June 30, 2012 and 2011

NOTE J--FAIR VALUE OF FINANCIAL INSTRUMENTS--Continued

Level 2 Inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets, and inputs that are observable for the asset and liability, either directly or indirectly, for substantially the full term of the financial instrument.

Level 3 Unobservable inputs for determining the fair values of assets or liabilities that reflect an entity's own assumptions about the assumptions that market participants would use in pricing the assets or liabilities.

The following table summarizes financial assets measured at fair value on a recurring basis as of June 30, segregated by the level of the valuation inputs within the fair value hierarchy utilized to measure fair value:

	2012			
	Level 1 Inputs	Level 2 Inputs	Level 3 Inputs	Total Fair Value
U.S. Government securities- based mutual funds	\$ 71,120,743	\$ -	\$ -	\$ 71,120,743

NOTE K--SUBSEQUENT EVENTS

The Authority has evaluated events and transactions that occurred subsequent to June 30, 2012 through November 30, 2012, the date these financial statements were available to be issued, for potential recognition or disclosure in these financial statements.

The Authority is subject to routine examinations by the Internal Revenue Service (IRS) for compliance with debt issuance requirements regarding both tax-exempt and taxable bond and note issues. In October 2012, the Authority received a letter from the IRS requesting information and documents for examination of the Authority's compliance regarding its \$40,625,000 Oklahoma Student Loan Bonds and Notes, Tax-Exempt Variable Rate Demand Obligations, Series 2002A-1 that was issued in 2002 and retired in full in 2010. The IRS also indicated it may expand the scope of its examination to other Authority bond or note issuances. The Authority believes its issuances comply with applicable Federal tax requirements and has engaged Kutak Rock LLP to assist with the examination.

Pursuant to the MOU between the Authority and USDE (Note H), the Authority was awarded a contract as an NFP Servicer. The Authority and USDE executed a NFP Servicer contract on July 12, 2012 and the Authority started servicing USDE loans on July 26, 2012. According to the terms of this NFP contract, USDE will transfer approximately 100,000 borrower accounts to the Authority for servicing. Subsequently, USDE transferred approximately 103,000 borrower accounts to the Authority in three separate on-boardings processed in July, August and September 2012.

NOTE L-NEW ACCOUNTING PRONOUNCEMENTS

The GASB has issued several new accounting pronouncements, which will be effective to the Authority in subsequent years. A description of the new accounting pronouncements, the fiscal year in which they are effective, and the Authority's consideration of the impact of these pronouncements are described below:

Fiscal Year Ended June 30, 2013

- *Statement No. 60, Accounting and Financial Reporting for Service Concession Arrangements* – GASB No. 60 addresses issues related to service concession arrangements (SCAs), which are a type of public-private or public-public partnership. This Statement applies only to those arrangements in which specific criteria determining whether a transferor has control over the facility are met. The Authority will only be required to adopt the provisions of GASB No. 60 if it enters into an SCA, and it currently has not entered into any such arrangements.

NOTES TO FINANCIAL STATEMENTS--Continued

OKLAHOMA STUDENT LOAN AUTHORITY

Years Ended June 30, 2012 and 2011

NOTE L-NEW ACCOUNTING PRONOUNCEMENTS--Continued

- Statement No. 61, *The Financial Reporting Entity: Omnibus – An Amendment of GASB Statements No. 14 and No. 34.*

GASB No. 61 modifies certain requirements for inclusion of component units in the financial reporting entity and also amends the criteria for reporting component units as if they were part of the primary government (that is, blending) in certain circumstances. Earlier application is encouraged. The Authority does not believe that the adoption of GASB No. 61 will have a significant impact on its financial statement presentation.

- Statement No. 62, *Codification of Accounting and Financial Reporting Guidance Contained in Pre-November 30, 1989 FASB and AICPA Pronouncements.*

GASB No. 62 is intended to enhance the usefulness of its Codification by incorporating guidance that previously could only be found in certain FASB and AICPA pronouncements. The Authority does not believe that the adoption GASB No. 62 will have a significant impact on its financial position, activities or cash flows, or its financial statement presentation.

- Statement No. 63, *Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position.*

GASB No. 63 provides financial reporting guidance for deferred outflows of resources and deferred inflows of resources. Previous financial reporting standards do not include guidance for reporting those financial statement elements, which are distinct from assets and liabilities. Adoption of this statement will require the Authority to make changes in its financial statement presentation.

Fiscal Year Ended June 30, 2014

- Statement No. 65, *Items Previously Reported as Assets and Liabilities.*

GASB No. 65 establishes accounting and financial reporting standards that reclassify, as deferred outflows of resources or deferred inflows of resources, certain items that were previously reported as assets and liabilities and recognizes, as outflows of resources (expenses) or inflows of resources (revenues), certain items that were previously recognized as assets and liabilities. The Authority has not quantified the effects of adoption of GASB No. 65 on its net position.

NOTE L-NEW ACCOUNTING PRONOUNCEMENTS--Continued

Fiscal Year Ended June 30, 2015

- *Statement No. 68, Accounting and Financial Reporting for Pensions, an Amendment of GASB Statement No. 27*

GASB No. 68 establishes standards for measuring and recognizing liabilities, deferred outflows of resources, deferred inflows of resources, and pension expenses. GASB No. 68 also details the recognition and disclosure requirements for employers with liabilities to a defined benefit pension plan and for employers whose employees are provided with defined contribution pensions. Defined benefit pensions are further classified by GASB No. 68 as single employer plans, agent employer plans and cost-sharing plans, and recognition and disclosure requirements are addressed for each classification. GASB No. 68 was issued in June 2012, and the Authority has not yet determined the impact that implementation of GASB No. 68 will have on its net position.

Independent Auditors' Report on
Compliance and Other Matters and on Internal
Control Over Financial Reporting Based on an Audit of Financial
Statements Performed in Accordance with *Government Auditing Standards*

The Board of Trustees
Oklahoma Student Loan Authority

We have audited the financial statements of the Oklahoma Student Loan Authority (the "Authority"), a component unit of the State of Oklahoma, as of and for the year ended June 30, 2012. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States of America.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Authority's financial statements are free of material misstatement, we performed tests of compliance with certain provisions of laws and regulations, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Internal Control Over Financial Reporting

Management of the Authority is responsible for establishing and maintaining effective internal control over financial reporting. In planning and performing our audit, we considered the Authority's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Authority's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the Authority's internal control over financial reporting.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

This report is intended solely for the information and use of the Authority's Board of Trustees and management and the State of Oklahoma and is not intended to be and should not be used by anyone other than these specified parties.

Independent Accountant's Report

We have examined management's assertions that Oklahoma Student Loan Authority ("OSLA") complied with the specified compliance requirements regarding LaRS Reporting; Loan Records; Interest Benefits; Special Allowance Payments; Loan Sales, Purchases, and Transfers; Enrollment Reports; Payment Processing; Due Diligence in Collection of Delinquent Loans; Timely Claim Filings; Curing Due Diligence and Timely Filing Violations; and Holding Loans as a Trustee for an Institution of Higher Education or an Affiliated Organization listed in Section 3 of the *Lender Servicer Financial Statement Audit and Compliance Attestation Guide*, during the year ended June 30, 2012. OSLA's management is responsible for OSLA's compliance with those requirements. Our responsibility is to express an opinion on the assertions based on our examination.

Our examination was conducted in accordance with the attestation standards applicable to attestation engagements established by the American Institute of Certified Public Accountants; standards contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the requirements contained in the *Lender Servicer Financial Statement Audit and Compliance Attestation Guide* issued by the U.S. Department of Education, Office of Inspector General; and accordingly, included examining, on a test basis, evidence supporting management's assertions and performing such other procedures as we considered necessary in the circumstances. We believe that our examination provides a reasonable basis for our opinion.

In our opinion, management's assertions referred to above are fairly stated, in all material respects, based on the requirements of the *Lender Servicer Financial Statement Audit and Compliance Attestation Guide*. Our examination does not provide a legal determination on OSLA's compliance with the specified requirements.

In accordance with *Government Auditing Standards*, we are required to report significant deficiencies in internal control identifying those considered to be material weaknesses, violations of provisions of contracts or grant agreements, and abuse that could have a material effect on OSLA's compliance with the specified requirements regarding LaRS Reporting; Loan Records; Interest Benefits; Special Allowance Payments; Loan Sales, Purchases, and Transfers; Enrollment Reports; Payment Processing; Due Diligence in the Collection of Delinquent Loans; Timely Claim Filings; Curing Due Diligence and Timely Filing Violations; Consolidation Loans; and Holding Loans as a Trustee for an Institution of Higher Education or an Affiliated Organization listed in Section 3 of the *Lender Servicer Financial Statement Audit and Compliance Attestation Guide* and any fraud and illegal acts that are more than inconsequential that come to our attention during our examination. We are also required to obtain the views of management on those matters. We performed our examination to express an opinion on whether management's assertions referred to above are fairly stated, in all material respects, and not for the purpose of expressing an opinion on internal control over the compliance requirements referred to above or on other compliance and other matters; accordingly, we express no such opinions. Our examination disclosed certain findings that are required to be reported under *Government Auditing Standards* and those findings, along with the views of management are described in the attached Schedule of Findings.

This report is intended solely for the information and use of the U.S. Department of Education and the management of OSLA and is not intended to be and must not be used by anyone other than these specified parties.

SCHEDULE OF FINDINGS

OKLAHOMA STUDENT LOAN AUTHORITY

June 30, 2012

FINDING 2012-01

Condition:

During our testing to verify that all required records have been maintained by OSLA for loans which it services, we noted one document was not properly maintained. Specifically, it was noted that a copy of the signed promissory note was not maintained for one loan in our audit sample of 60 loans which is the required sample size prescribed by Section 3 of the *Lender Servicer Financial Statement Audit and Compliance Attestation Guide*. Our sample of 60 was randomly selected from the universe of 16,396 loans serviced by OSLA as of May 31, 2012.

Criteria:

A lender is required to maintain current, complete, and accurate records of each loan that it holds. Along with other documents, a copy of the signed promissory note and documentation of the master promissory note confirmation process are specifically required by federal regulations to be maintained.

Effect of the Condition:

Missing documents could expose OSLA to a lack of recourse for the loan. Also, loan records collectively form the basis for the information contained in the quarterly Lender's Interest and Special Allowance Request and Report (LaRS). Missing documents increase the risk for inaccurate information reported on the quarterly LaRS.

Cause of the Condition:

The loan without the signed promissory note was originated by a lender other than OSLA prior to OSLA beginning to service the loans. OSLA has indicated that it did not receive the documents from the original lender. Therefore, OSLA did not perform procedures upon commencement of the loans being serviced by OSLA to ensure that it received all documentation required by federal regulations.

Recommendation:

We recommend that OSLA ensure that procedures are in place to verify that it has received all records required by federal regulations for loans as they are received by OSLA for servicing. Completing a checklist containing all required documents to be maintained with each borrower's loan records would be beneficial in ensuring that a review of loan records is performed for all loans as they are received by OSLA for servicing. Federal regulations state that indemnification agreements signed by the lender will be accepted in certain circumstances involving missing documents. However, these indemnification agreements do not satisfy the requirement to maintain current, complete, and accurate records and do not eliminate the risk of loss if a loan for which documentation has not been properly maintained is contested. Therefore, it should be included in the procedures to verify all records are received from the original servicer that indemnification agreements from the original servicer are obtained if any documents are identified as missing.

SCHEDULE OF FINDINGS--Continued

OKLAHOMA STUDENT LOAN AUTHORITY

June 30, 2012

FINDING 2012-02

Condition:

For several separate lender identification numbers, it was noted that the quarterly Lender's Interest and Special Allowance Request and Report (LaRS) was not filed within the required 90 days after the end of the quarter for the second, third, and fourth quarters of the fiscal year ended June 30, 2012. Specifically, the quarterly LaRS was not filed within the required time limit as follows:

OSLA Servicer Loans - one lender identification number in each of the quarters ended December 31, 2011, March 31, 2012 and June 30, 2012 was not filed timely.

Criteria:

To be considered timely the quarterly LaRS must be submitted to the Department of Education within 90 days after the end of each quarter to be considered timely.

Effect of the Condition:

Not timely filing the quarterly LaRS may result in fees or other penalties assessed by the Department of Education. The Department of Education did not assess any fees or other penalties for any of the late filings during the fiscal year ended June 30, 2012.

Cause of the Condition:

During the fiscal year ended June 30, 2012, the Authority was in the process of obtaining a contract with the Department of Education to become a Not-for-Profit (NFP) Servicer to service federally held student loans. The number of personnel employed by the Authority during the year was not sufficient to meet all required deadlines associated with obtaining the NFP Servicer contract and timely submit each of its quarterly LaRS.

Recommendation:

We recommend that the Authority regularly assess the sufficiency of its staff. A more in depth assessment should be performed when situations arise that will involve labor intensive procedures and strict deadlines such as the process of obtaining the contract to become a NFP Servicer.

CORRECTIVE ACTION PLAN

FFEL Program Lender Servicer Compliance Attestation Report

June 30, 2012

Finding 2012-01:

Not all required documents were properly maintained. It was specifically noted that the Servicer was not able to locate one signed promissory note.

Background / Comments –

OSLA utilizes document imaging and microfilm systems as repositories for our required student loan documents. OSLA currently services loans that were originated and disbursed by lender customers prior to OSLA starting our loan servicing responsibilities.

Actions Taken –

OSLA performed a diligent search in our document imaging and microfilm systems for this missing document. We were not able to find this document.

OSLA researched the Common Manual of Unified Student Loan Policy on this matter and found guidance that an Indemnification Agreement may be used or accepted if servicer is unable to provide this documentation for claim filing.

OSLA researched this loan in this finding and determined that it had been paid in full by consolidation.

Additionally, OSLA's research on this loan determined that the related missing document did not result in inaccurate reporting on any quarterly Lender's Interest and Special Allowance Request and Report.

Actions Planned –

OSLA currently is not receiving new loans for servicing. In the event that OSLA does resume adding new loans for servicing, we will review and update our procedures on obtaining and storing all required documents including signed promissory notes.

Finding 2012-02:

Certain quarterly Lender's Interest and Special Allowance Request and Reports (LARS) for OSLA owned loans and for loans owned by lender customers and serviced by OSLA were not filed within the required 90 day period after close of the calendar quarters.

Background / Comments –

OSLA did not assign adequate staff to prepare and submit these LARS reports during the periods noted. Additionally, OSLA encountered problems installing the new version of EdConnect which is the secured process for submitting the LARS reports.

Actions Taken –

OSLA staff worked with Department of Education personnel to identify un-filed LARS reports and to install the new version of EdConnect. All delinquent LARS reports were filed and all LARS for the quarter ending September 30, 2012 were filed by November 2, 2012.

Actions Planned –

OSLA will assign additional staff to the preparation and submission of quarterly LARS reports and properly monitor this work to ensure reports are filed in a timely manner.

Assertions

The management of Oklahoma Student Loan Authority ("OSLA") provides these assertions to your firm because it is conducting an engagement of OSLA's compliance with the U.S. Department of Education's *Lender Servicer Financial Statement Audit and Compliance Attestation Guide* ("Guide"). The purpose of the compliance engagement is to express an opinion about whether OSLA has complied with the requirements, described in the following subsections of Section 3 of the Guide:

- §3.2 LaRS Reporting;
- §3.3 Loan Records;
- §3.4 Interest Benefits;
- §3.5 Special Allowance Payments;
- §3.6 Loan Sales, Purchases, and Transfers;
- §3.7 Enrollment Reports;
- §3.8 Payment Processing;
- §3.9 Due Diligence in the Collection of Delinquent Loans;
- §3.10 Timely Claim Filings;
- §3.11 Curing Due Diligence and Timely Claim Filing Violations; and
- §3.12 Holding Loans as a Trustee for an Institution of Higher Education or an Affiliated Organization

Representations

We also represent that the management of OSLA:

- Acknowledges and accepts responsibility for its compliance with the specified requirements;
- Acknowledges and accepts responsibility for establishing an effective internal control structure over compliance;
- Has evaluated its compliance with the specified requirements or its controls for ensuring compliance and detecting noncompliance with requirements, as applicable;
- Asserts that, based on its evaluation of the requirements identified in Section 3 of the U.S. Department of Education's *Lender Servicer Financial Statement Audit and Compliance Attestation Guide*, that OSLA is in compliance with those requirements and the internal controls relating to those requirements are effective;
- Has disclosed to you, the auditor, all known noncompliance;
- Has made available to you, the auditor, all documentation related to compliance with the specified requirements;

- Has disclosed any communications from regulatory agencies, internal auditors, and other auditors concerning possible noncompliance with the specified requirements, including communications received between the end of the period addressed in the written assertion and the date of the auditor's report;
- Has disclosed any known noncompliance occurring subsequent to the period for which we are making these assertions, (June 30, 2012); and
- Has not provided any interpretations to you, the auditor, of compliance requirements that have varying interpretations.

The management of OSLA confirms that the assertions and representations provided in this document are true and accurate, to the best of its knowledge and belief.

Sincerely,

James T. Farha, President
