### Corporate Trustee

Bank of Oklahoma, N. A., Oklahoma City, OK is the corporate Trustee under the Master Bond Resolution.

### Debt Service Reserve Account

On May 22, 2001, the trustees of the Authority adopted a Debt Service Reserve Account Requirement Supplemental Resolution. This supplemental resolution reduced the Debt Service Reserve Requirements on the various series of Bonds and Notes from two per cent (2%) of their outstanding principal amounts to one per cent (1%). At June 30, 2006, the amount in the Debt Service Reserve Account met the Debt Service Requirement.

### Additional Obligations

The Master Bond Resolution permits the issuance of Additional Obligations under certain conditions by adoption of Supplemental Bond Resolutions, and by entering into agreements, such as interest rate swaps. The conditions to issue Additional Obligations include written confirmation by each rating agency that its applicable ratings on the outstanding Bonds and Notes will not be lowered or withdrawn because of the issuance of the Additional Obligations. The Additional Obligations may be issued in any of the three priority classes: Senior Obligations; Subordinate Obligations; or Junior-Subordinate Obligations.

No interest rate swap agreements, trust estate collateral investment agreements or other such agreements have been issued as Additional Obligations.

### LOAN PORTFOLIO DATA

#### General

Eligible Loans in the security for the Master Bond Resolution consist of Federal Family Education Loan ("FFEL") Program loans that are made under the Higher Education Act. The FFEL Program loans are guaranteed or insured to the maximum allowed by the Higher Education Act with respect to the Eligible Loan at the time it was originated.

At June 30, 2006, the current principal balance of the Authority's Eligible Loan principal (exclusive of uninsured status loans) receivable from borrowers was approximately as shown in the following table.

FFEL Program Loans	Eligible Loan Principal
Authority Total	\$927,395,719
Master Bond Resolution Trust Estate	\$378,113,995

#### Loan Guarantee or Insurance

At June 30, 2006, the current principal balance of Eligible Loans was guaranteed approximately in the percentages shown in the following table.

Guarantor	Principal Location	Per Cent of Total Authority	Per Cent of Master Bond Resolution Trust Estate
Oklahoma State Regents, Guaranteed Student Loan Program (OGSLP)	Oklahoma City, OK	88.8%	86.8%
SLGFA, Inc. (AR)	Little Rock, AR	5.9	8.7
TGSLC (TX)	Austin, TX	4.6	3.8
USAF, Inc.	Indianapolis, IN	0.1	0.1
LSFAC (LA)	Baton Rouge, LA	0.5	0.6
National Student Loan Program (NSLP)	Lincoln, NE	0.1	0.0
		100.0%	100.0%

At June 30, 2006, substantially all of the loans were guaranteed at 98% (percentage of the principal amount of a default claim) of Eligible Loans.

*Exceptional Performer Designation* - The Higher Education Act authorizes recognition of qualified lender servicers for exceptional performance ("Exceptional Performer") in servicing FFEL Program loans. We were designated by the U.S. Department of Education ("USDE") as an Exceptional Performer for claims submitted on or after January 1, 2006, until otherwise notified by USDE.

Exceptional Performer status means that we were paid 100% of default claims submitted from January 1, 2006, through June 30, 2006, instead of 98%. Under the Deficit Reduction Act of

<p>OKLAHOMA STUDENT LOAN AUTHORITY 2006 SECONDARY MARKET DISCLOSURE - 1995 MASTER BOND RESOLUTION</p>
---

2005, enacted in February 2006, beginning July 1, 2006, Exceptional Performers will be paid 99% of claims submitted instead of 97%.

In order to maintain Exceptional Performer status, we are required to submit and have submitted, ongoing quarterly compliance audits of certain loan servicing activities to demonstrate that we comply with the requirements for Exceptional Performer status.

### Loan Type

At June 30, 2006, the current principal balance of Eligible Loans by loan type was approximately in the percentages shown in the following table.

Loan Type	Per Cent of Total Authority	Per Cent of Master Bond Resolution Trust Estate
Federal Stafford Subsidized	31.8%	36.7%
Unsubsidized	23.1	23.8
Total Stafford	54.9%	60.5%

## LOAN SERVICING

### General

We service all of our own education loans. Loan servicing is performed by us under our trademark name, OSLA Student Loan Servicing™. As a loan servicer, we were designated by USDE for Exceptional Performer status beginning January 1, 2006.

At June 30, 2006, the Authority serviced FFEL Program loans, including education loans serviced for 40 other lenders in the OSLA Student Lending Network (the "OSLA Network"), with a current principal balance totaling approximately \$1,111,117,772.

### Standards and Activities

We have serviced our own loans, and performed third party pre-acquisition servicing of the loans of the OSLA Network, since 1994. Loan servicing activities performed by us include:

- Application processing and funds disbursement in originating loans;
- Customer service;
- Loan account maintenance, including production of notices and forms to borrowers and the resulting processing;
- Reconciliation and payment of guarantee fee (beginning July 1, 2006, the new federal default fee) billings;
- Billings to USDE for Interest Benefit Payments and Special Allowance Payments;
- Collection of principal and interest from borrowers;
- Filing claims to collect guarantee payments on defaulted loans; and
- Accounting for ourselves and for the OSLA Network.

We are required to use due diligence in originating, servicing and collecting education loans. In addition, we are required to use collection practices no less extensive and forceful than those generally in use among financial institutions with respect to other consumer debt.

In order to satisfy the due diligence requirements, we must adhere to specific activities in a timely manner. These activities begin with the receipt of the loan application and continue throughout the life of the loan. Examples of specific due diligence activities include:

- Verifying that the original application is completed with all pertinent data and has a guarantee provided to the lender;
- Diligent efforts to contact a delinquent borrower by letter and telephone;
- Skip tracing if a borrower has an invalid phone number or address;
- Requesting default aversion assistance from the Guarantor between 60 and 120 days of delinquency;
- Sending a final demand letter to the borrower when the loan becomes 241 or more days delinquent; and
- Timely filing of the default claim for payment, provided the borrower's failure to make monthly installment payments when due, or to comply with other terms of the obligation, persists for the most recent consecutive 270-day period (330 days for a loan repayable in less frequent installments).

OKLAHOMA STUDENT LOAN AUTHORITY  
2006 SECONDARY MARKET DISCLOSURE - 1995 MASTER BOND RESOLUTION

### **OSLA Student Loan Servicing System**

From 1994 to 2002, our loan servicing was done as a remote user of another party's loan servicing system. Presently, we originate and service loans in-house using our own staff and the "OSLA Student Loan Servicing System" comprised of:

- An IBM iSeries computer, acquired in October 2005, that we own, which replaced an earlier iSeries model, resulting in a significant upgrade in configuration, processor capability and memory storage;
- iSeries related operating and database software that we license from IBM;
- Personal computers and an NT based local area network;
- Aid Delivery System ("ADS") software that we licensed on a perpetual basis from Idaho Financial Associates, Inc. ("IFA"), Boise, Idaho;
- IFA Student Loan Servicing System ("IFA-SLSS") software that we licensed also on a perpetual basis from IFA; and
- Ancillary software programs of proprietary software and database query reports that we developed and various commercial software applications licensed from various vendor sources.

We began originating education loans using the OSLA Student Loan Servicing System on January 28, 2002. We converted loans from the remote third party database and implemented all servicing of our portfolio, and the portfolios of the OSLA Network, with the OSLA Student Loan Servicing System as of March 1, 2002.

Together, the IFA ADS and IFA-SLSS systems are referred to herein as the "IFA System". We are the only user of IFA ADS. IFA provides the IFA-SLSS education loan servicing software to 13 other student loan users that service loans. In addition to licensing the IFA-SLSS software, IFA provides software maintenance and enhancement at the direction of the users, as well as support, pursuant to a multi-year agreement.

IFA is a wholly owned subsidiary of Nelnet, Inc., Lincoln, Nebraska. Nelnet, Inc. uses the IFA-SLSS to service loans. Nelnet, Inc. also is a competitor of ours as a loan servicer, secondary market and a Consolidation Loan lender.

In operating the OSLA Student Loan Servicing System, also we are responsible for:

- Providing, maintaining and operating the requisite computer system and its operating and database software;
- Maintenance of tables and profiles on lenders, guarantors and post-secondary education institutions that we work with;
- Installing and testing new releases of the IFA System;
- Participation in the IFA System users' group which is responsible for compliance of IFA-SLSS with the Higher Education Act and other applicable law;
- Exchanges of data files with various third party trading partners;
- Any necessary or desirable ancillary programming for loan servicing functionality not provided by IFA; and
- Necessary or desirable internet functionality related to loan origination and servicing.

<b>OKLAHOMA STUDENT LOAN AUTHORITY</b> <b>2006 SECONDARY MARKET DISCLOSURE - 1995 MASTER BOND RESOLUTION</b>
---

In addition to our own use of the OSLA Student Loan Servicing System, we provide, operate, support and maintain our system for remote use by certain OSLA Network lenders in their origination and interim servicing of FFEL Program loans from their premises. Under the remote arrangement, the OSLA Network lenders are required to sell, and we are required to purchase, their FFEL Program loans originated and serviced by the remote use of the OSLA Student Loan Servicing System.

**Excess Yield Calculations**

Proceeds from the Authority's tax exempt debt that are invested in student loans are subject to a maximum allowable spread between the student loan yield and the related debt yield over the life of the respective issues. Any excess student loan interest over the allowable debt yield would be rebated to the student loan borrowers as interest rate reductions or loan principal forgiveness.

As of June 30, 2006, the computed estimate of the excess loan yield for the Series 1995A/B Bonds and Notes was approximately \$399,605. The estimate of the excess loan yield for the Series 1996B Bonds was calculated at approximately \$142,788. These estimates are accounted for in the Asset Coverage Ratios in the preceding section.

At June 30, 2006, there was no excess loan yield for the Series 2001A/B, Series 2004A-1, and the Series 2004A-2 Bonds.

Management is actively monitoring the yield spread and will take necessary action to maintain student loan yields within the allowable spread over the life of the respective debt issuances.
