Bond Insurance

Payment of the principal of and interest on each series of Bonds, as the payments become due, is secured by a separate financial guaranty insurance policy issued by MBIA Insurance Corporation ("MBIA"), as the "Credit Facility Provider".

<p>OKLAHOMA STUDENT LOAN AUTHORITY 2008 SECONDARY MARKET DISCLOSURE - 1996 INSURED BOND RESOLUTION</p>
--

Based on the financial guaranty insurance policies, each series of the Bonds has long-term ratings of:

- “A2” by Moody’s Investors Service, Inc. (“Moody’s”); and
- “AA” by Standard & Poor’s Ratings Services (“S&P”).

In addition to their long-term ratings, the Weekly Rate series of Bonds also have short-term ratings of:

- VMIG-3 by Moody’s; and,
- A-1 by S&P.

Liquidity Facilities

The Bond Series listed below are outstanding as demand obligations bearing a Weekly Rate of interest. Each Weekly Rate series of Bonds is supported by a separate Standby Bond Purchase Agreement as a “Liquidity Facility”. The Liquidity Facility providers for the Weekly Rate series of Bonds are:

Bond Series	Liquidity Facility Provider	Expiration Date*

Corporate Trustee

Bank of Oklahoma, N. A., Oklahoma City, OK is the corporate Trustee under the Insured Bond Resolution.

Additional Obligations

The Insured Bond Resolution permits the issuance of Additional Obligations by adoption of Supplemental Bond Resolutions on the conditions, among other things, that the Corporate Trustee receives:

- Written consent of the Credit Facility Provider;
- Written verification from each rating agency confirming that the ratings on the outstanding series of Bonds will not be lowered or withdrawn because of the issuance of the Additional Obligations; and
- An opinion of bond counsel regarding various matters.

If issued, Additional Obligations would be on parity with the outstanding Bonds.

Debt Service Reserve Account Surety

In connection with the issuance of the Series 2002A Bonds, the Insured Bond Resolution was amended to reduce the Debt Service Reserve Account Requirement from 2% to 1% of the principal amount of Bonds outstanding under the Insured Bond Resolution. The amendment was made pursuant to provisions of the Insured Bond Resolution that required the consent of the Credit Facility Provider and the Liquidity Facility Providers, and confirmation of the ratings by Moody's and S&P.

In connection with the issuance of the Series 2006A-1 Bonds, the Debt Service Account Requirement for that series of bonds is one-half percent (0.5%) of the principal amount of the Series 2006A-1 Bonds, or, \$762,725.

MBIA has issued five separate Debt Service Reserve Surety Bonds for coverage of the Debt Service Reserve Account Requirement in the aggregate amount of \$4,421,925 for all Bonds outstanding.

LOAN PORTFOLIO DATA

General

Eligible Loans in the security for the Insured Bond Resolution consist of Federal Family Education Loan ("FFEL") Program loans made under the Higher Education Act. The FFEL Program loans are guaranteed or insured to the maximum allowed by the Higher Education Act with respect to the Eligible Loan at the time it was originated.

At June 30, 2008, the current principal balance of the Authority's Eligible Loan principal (exclusive of uninsured status loans) receivable from borrowers was approximately as shown in the following table.

<u>FFEL Program Loans</u>	<u>Eligible Loan Principal</u>
Authority Total	\$1,239,920,834
Insured Bond Resolution Trust Estate	\$ 518,515,618

Loan Guarantee or Insurance

At June 30, 2008, the current principal balance of Eligible Loans was guaranteed approximately in the percentages shown in the following table.

Guarantor	Principal Location	Per Cent of Total Authority	Per Cent of Insured Bond Resolution Trust Estate
Oklahoma State Regents, Guaranteed Student Loan Program (OGSLP)	Oklahoma City, OK	87.9%	89.1%
SLGFA, Inc. (AR)	Little Rock, AR	6.6	4.9
TGSLC (TX)	Austin, TX	4.3	4.7
USAF, Inc.	Indianapolis, IN	0.1	0.2
LSFAC (LA)	Baton Rouge, LA	0.8	0.8
National Student Loan Program (NSLP)	Lincoln, NE	0.3	0.3
		<u>100.0%</u>	<u>100.0%</u>

At June 30, 2008, substantially all of the loans were guaranteed at 98% or 97% (percentage of the principal amount of a default claim).

Exceptional Performer Designation - The Higher Education Act authorizes recognition of qualified lender servicers for exceptional performance ("Exceptional Performer") in servicing FFEL Program loans. The U.S. Department of Education ("USDE") designated us as an Exceptional Performer for claims submitted on or after January 1, 2006, until otherwise notified by USDE.

Exceptional Performer status meant that we were paid 100% of default claims submitted from January 1, 2006, through June 30, 2006, instead of 98%. Under the Deficit Reduction Act of 2005, beginning July 1, 2006, Exceptional Performers were paid 99% of claims submitted instead of 97%. However, legislation enacted after June 30, 2007 eliminated the Exceptional Performer status.

Loan Type

At June 30, 2008, the current principal balance of Eligible Loans by loan type was approximately in the percentages shown in the following table.

LOAN SERVICING

We service all of our own loans. We perform loan servicing under our trademark name, OSLA Student Loan Servicing™.

At June 30, 2008, we serviced FFEL Program loans, including loans serviced for 41 other lenders in the OSLA Student Lending Network (the "OSLA Network"), with a current principal balance totaling approximately \$1,508,823,781.

Standards and Activities

We have serviced our own loans, and performed third party pre-acquisition servicing of the loans of the OSLA Network, since 1994. Loan servicing activities performed by us include:

OKLAHOMA STUDENT LOAN AUTHORITY
2008 SECONDARY MARKET DISCLOSURE - 1996 INSURED BOND RESOLUTION

- Application processing and funds disbursement in originating loans;
- Customer service;
- Loan account maintenance, including production of notices and forms to borrowers and the resulting processing;
- Reconciliation and payment of federal default fee billings;
- Billings to USDE for Interest Benefit Payments and Special Allowance Payments;
- Collection of principal and interest from borrowers;
- Filing claims to collect guarantee payments on defaulted loans; and
- Accounting for ourselves and the OSLA Network.

We are required to use due diligence in originating, servicing and collecting education loans. In addition, we are required to use collection practices no less extensive and forceful than those generally in use among financial institutions with respect to other consumer debt.

In order to satisfy the due diligence requirements, we must adhere to specific activities in a timely manner. These activities begin with the receipt of the loan application and continue throughout the life of the loan. Examples of specific due diligence activities include:

- Verifying that the original application is completed with all pertinent data and has a guarantee provided to the lender;
- Diligent efforts to contact a delinquent borrower by written correspondence and telephone;
- Skip tracing if a borrower has an invalid phone number or address;
- Requesting default aversion assistance from the Guarantor between 60 and 120 days of delinquency;
- Sending a final demand letter to the borrower when the loan becomes 241 or more days delinquent; and
- Timely filing of the default claim for payment, provided the borrower's failure to make monthly installment payments when due, or to comply with other terms of the obligation, persists for the most recent consecutive 270-day period (330 days for a loan repayable in less frequent installments).

OSLA Student Loan Servicing System

From 1994 to 2002, our loan servicing was done as a remote user of another party's loan servicing system. Presently, we originate and service loans in-house using our own staff and the "*OSLA Student Loan Servicing System*" comprised of:

- An IBM iSeries computer, acquired in October 2005, that we own, which replaced an earlier iSeries model, resulting in a significant upgrade in configuration, processing capability and memory storage;
- iSeries related operating and database software that we license from IBM;
- Personal computers and an NT based local area network;
- Aid Delivery System ("IFA-ADS") software that we licensed on a perpetual basis from Idaho Financial Associates, Inc. ("IFA"), Boise, Idaho;
- IFA Student Loan Servicing System ("IFA-SLSS") software that we licensed also on a perpetual basis from IFA; and

<p>OKLAHOMA STUDENT LOAN AUTHORITY 2008 SECONDARY MARKET DISCLOSURE - 1996 INSURED BOND RESOLUTION</p>
--

- Ancillary software programs of proprietary software and database query reports that we developed and various commercial software applications licensed from multiple vendor sources.

We began originating education loans using the OSLA Student Loan Servicing System on January 28, 2002. We converted loans from the remote third party database and implemented all servicing of our portfolio, and the portfolios of the OSLA Network, with the OSLA Student Loan Servicing System as of March 1, 2002.

Together, the IFA-ADS and IFA-SLSS systems are referred to herein as the "IFA System". We are the only user of IFA-ADS. IFA provides the IFA-SLSS education loan servicing software to 13 other student loan users that service loans, including Nelnet, Inc. In addition to licensing the IFA System software, IFA provides software maintenance and enhancement at the direction of the users, as well as support.

IFA is a wholly owned subsidiary of Nelnet, Inc., Lincoln, Nebraska. Nelnet, Inc. also is a competitor of ours as a loan servicer, secondary market and Consolidation Loan lender.

In operating the OSLA Student Loan Servicing System, also we are responsible for:

- Providing, maintaining and operating the requisite computer system and its operating and database software;
- Maintenance of tables and profiles on lenders, guarantors and post-secondary education institutions that we work with;
- Installing and testing new releases of the IFA System;
- Participation in the IFA-SLSS users' group which is responsible for compliance of IFA-SLSS with the Higher Education Act and other applicable law;
- Exchanges of data files with various third party trading partners;
- Any necessary or desirable ancillary programming for loan servicing functionality not provided by IFA; and
- Necessary or desirable internet functionality related to loan origination and servicing.

In addition to our own use of the OSLA Student Loan Servicing System, we provide, operate, support and maintain our system for remote use by certain OSLA Network lenders in their origination and interim servicing of FFEL Program loans from their premises. Under the remote arrangement, the OSLA Network lenders are required to sell, and we are required to purchase, their FFEL Program loans originated and serviced by the remote use of the OSLA Student Loan Servicing System.

Excess Yield Calculations

Proceeds from the Authority's tax exempt debt that are invested in student loans are subject to a maximum allowable spread between the student loan yield and the related debt yield over the life of the respective issues. Any excess student loan interest over the allowable debt yield would be rebated to the student loan borrowers as interest rate reductions or loan principal forgiveness.

As of June 30, 2008, the computed estimate of the excess loan yield for the Series 1996A Bonds was approximately \$0.00, and the estimated excess loan yield for the Series 1997A Bonds was approximately \$0.00. These estimates are accounted for in the Asset Coverage Ratios in the preceding section.

At June 30, 2008, there was no excess loan yield for the Series 1998A, Series 2000A-4, Series 2002A Bonds, Series 2003A, Series 2005A Bonds or Series 2006A-1 Bonds.

Management is actively monitoring the yield spread and will take necessary action to maintain student loan yields within the allowable spread over the life of the respective debt issuances.
