<u>Information Available More Frequently Than Annually</u>: OSLA posts information similar to the attached material quarterly, on or about the Quarterly Distribution Dates; and, in addition, we post certain other information on our financial investor information website which can be found at: <a href="www.OSLAfinancial.com">www.OSLAfinancial.com</a>.

The Series 2013-1 Bonds were issued on April 8, 2013. The Series 2013-1 Bonds receive monthly interest payments and distributions of principal on the 25th day of month, or the next succeeding business day if the 25<sup>th</sup> is not a business day. All distributions of principal will be made on a pro rata basis and will be treated by The Depository Trust Company in accordance with its rules and procedures as "Pro Rata Pass-Through Distribution of Principal."

#### **Ratings Affirmation**

On September 25, 2014, Standard & Poor's affirmed its ratings on five classes of bonds from Oklahoma Student Loan Authority's series 2010A, 2011-1, and 2013-1. The affirmations reflect S&P's view that the current credit enhancement available in the transaction is not able to absorb the 15% haircut to the cash inflows received from the U.S. federal government under FFELP in a 'AAA' stress scenario. The affirmations also reflect S&P's assessment of the likelihood that principal will be paid pro rata among the class A notes following a nonmonetary event of default. Accordingly, S&P is affirming their current 'AA+ (sf)' ratings on the bonds from all three series.

#### **USDE Direct Lending Loan Servicing**

During July 2012, OSLA was awarded a Not For Profit Servicer loan servicing contract by the Department of Education to service loans owned by the Department of Education in its Direct Loan Program under the Higher Education Act. From July 2012 through September 2012, OSLA on-boarded approximately 103,000 borrower accounts and began servicing those student loans. We earn a monthly servicing fee pursuant to the contract based on the number of borrower loans and loan status. As of June 30, 2014, we were servicing approximately \$1,000 borrower accounts with an aggregate principal balance of approximately \$1,449,435,000.

During September 2014, the Department of Education issued contract modifications which, among other changes, established common pricing for loans serviced by Title IV and NFP members of the federal loan servicing team. These modifications provided for additional categories of loan status (delinquent 6–30 days, and service members, for example) together with related revised rates.

Also during September 2014, the Department of Education announced revised quarterly performance metrics by which NFP members of the federal loan servicing team are measured. The metrics determine the allocation of new loans to each NFP servicer relative to the other NFP servicers. The performance metrics assign a score to each servicer based on five metrics in two areas. The first two metrics measure borrower satisfaction survey results and Department of Education Federal Student Aid employee survey scores. The second group includes three metrics and measures the success of default prevention efforts using the repayment status of borrowers (current, delinquent and defaulted). Allocations to NFP servicers, representing approximately 25% of the total new borrower volume, will begin in early 2015.

Through August 2015, OSLA has received approximately 37,000 new loans through the allocation process and anticipates additional volume of loans as students receive loans during the fall 2015 semester and into the 2015-2016 school year.
