- ¹ The Series 2011-1 Bonds were issued on June 29, 2011. The Series 2011-1 Bonds receive quarterly interest payments and distributions of principal on the first business day of each March, June, September and December. All distributions of principal will be made on a pro rata basis and will be treated by The Depository Trust Company in accordance with its rules and procedures as “Pro Rata Pass-Through Distribution of Principal.”
- ² S&P’s original rating lowered from AAA(sf) in 2011 because of that rating agency’s earlier decision to downgrade the long-term sovereign debt rating of the United States of America from AAA to AA+.

Ratings Affirmation

In February, March and June of 2016, Fitch Ratings affirmed its rating on the Oklahoma Student Loan Authority's Series 2013-1, 2011-1 and Series 2010A respectively. Key ratings drivers noted were high collateral quality, sufficient credit enhancement, adequate liquidity support and acceptable servicing capabilities. More information regarding the affirmed ratings may be obtained from Fitch and from the press release dated February 8, March 16 and June 3, 2016, respectively.

USDE Direct Lending Loan Servicing

During July 2012, OSLA was awarded a Not For Profit Servicer loan servicing contract by the Department of Education to service loans owned by the Department of Education in its Direct Loan Program under the Higher Education Act. From July 2012 through September 2012, OSLA on-boarded approximately 103,000 borrower accounts and began servicing those student loans. We earn a monthly servicing fee pursuant to the contract based on the number of borrower loans and loan status. As of June 30, 2016, we were servicing approximately 164,000 borrower accounts with an aggregate principal balance of approximately \$2,012,369,000.

During September 2014, the Department of Education issued contract modifications which, among other changes, established common pricing for loans serviced by Title IV and NFP members of the federal loan servicing team. These modifications provided for additional categories of loan status (delinquent 6–30 days, and service members, for example) together with related revised rates.

Also during September 2014, the Department of Education announced revised quarterly performance metrics by which NFP members of the federal loan servicing team are measured. The metrics determine the allocation of new loans to each NFP servicer relative to the other NFP servicers. The performance metrics assign a score to each servicer based on five metrics in two areas. The first two metrics measure borrower satisfaction survey results and Department of Education Federal Student Aid employee survey scores. The second group includes three metrics and measures the success of default prevention efforts using the repayment status of borrowers (current, delinquent and defaulted). Allocations to NFP servicers, representing approximately 25% of the total new borrower volume, began in early 2015. The Authority expects to receive a significant increase in the number of loans allocated in fiscal year 2017 compared to prior years based on the results of the common calculation methodology results for the quarter beginning July 1, 2016 that will be in place for the beginning of the 2016-2017 school year.
